| V   | One (1) crate, live — land snails, edible, keep cool and damp       | 0.1 t  |

## CONDITIONS & ENDORSEMENTS

1. **Perishables.** Lots I and V are carried at the Carrier's care; spoilage in transit is deducted from the Payout at the Consignee's assessment.
2. **Air & complement.** The Carrier attests a breathable envelope adequate to the voyage and warrants it will not exceed its rated complement. The Registry assumes no liability for the air clock.
3. **Inspection.** This carriage is subject to Route Warden inspection at any point without appeal. Delay so incurred is the Carrier's to bear.
4. **Settlement in kind.** Where the Consignee cannot render coin, settlement may be tendered in refined ore at the prevailing Verge rate, at the Carrier's acceptance.
5. **Salvage & loss.** Goods lost to the void without negligence are noted, not charged. Goods recovered from the void remain the Registry's to adjudicate.
6. **Course accuracy.** Filed coordinates are provided in good faith and are *not warranted current*. The Registry does not guarantee that any route remains as charted. Carriers sail the Verge at their own reckoning.
7. **Reputation.** Completion is scored to the Carrier's standing on the Manifest Board. Non-delivery is likewise recorded.
